This report is based on the price of materials when the teacher submitted his/her proposal. Actual expenditures may differ slightly from the above estimate due to items going on sale at time of purchase; the need to use alternate suppliers when the original items are out of stock; and/or the absence of payment processing charges for donations by check. If actual expenditures turn out to be more than the above estimate, DonorsChoose.org pays for the difference. If actual expenditures turn out to be less than the above estimate, DonorsChoose.org places the savings in a restricted account that is solely used to fund additional classroom project materials. In short, any savings go to students.

\* The shipping fee represents a net average of vendor shipping rates based on an annual evaluation conducted by DonorsChoose.org. Any savings are restricted to funding additional classroom project materials.

\*\* The sales tax fee represents the state sales tax charged with one exception: a 15% charge is added by DonorsChoose.org to projects taking place in Hawaii and Alaska to cover the higher cost of shipping resources to these two states.

# DonorsChoose.org Project Fulfillment Report

**Project:** My Favorite Region of North Carolina! (#154421)

**Teacher Receiving Resources:** Ms. M (Abbreviated since this document is publicly available)

**Students Benefited:** 80

**Instructional and Homework Hours Supplied:** 5.00

This report details the labor performed by DonorsChoose.org to turn your donation into a live project. The project fulfillment fee supports this work and ensures "end to end" integrity on every student project. While the cost of fulfilling a student project remains the same, DonorsChoose.org offers a "scholarship" to the highest-need schools. Depending on a school's poverty level, the fulfillment fee is 25%, 20%, or 15% of the total project cost. The vast majority of schools using DonorsChoose.org have high rates of poverty, so most proposals carry the 15% fulfillment fee.

**Jul 7, 2006** Ms. M completed the registration process at DonorsChoose.org and identified the school where any project would take place. DonorsChoose.org only lists schools which have been verified by the government, and staff members update school information (such as address and % of students from low-income families) every four months.

**Jan 28, 2008** Ms. M submitted "My Favorite Region of North Carolina!" at DonorsChoose.org.

**Feb 1, 2008** DonorsChoose.org volunteer Tracey W reviewed the proposal essay to ensure that Ms. M fully explained the student learning that would take place, and emailed follow-up questions if anything was unclear.

**Feb 4, 2008** DonorsChoose.org staff member John C verified the project resources and calculated the proposal price tag.
